Subject: MICROSOFT SETTLEMENT

Dear Department of Justice:

I believe that the suit against Microsoft is nothing more than welfare for Netscape and others. Please stop this suit right now. Microsoft has suffered enough. I am a computer user and if Microsoft wants to give me something, I appreciate it. I am glad that Internet Explorer comes with my computer's operating system. If I wanted Netscape, I could download it, but I don't.

Thank you,
Mary D. Putty
